

Ergo Line Duo

Fan heating + Neutral

Product description

Ergo Line Duo is made to hold and transport cold and hot food in two separate compartments. The box is designed with ScanBox ExP construction that combines optimized insulation performance with high operational reliability and environmentally conscious choices.

The left compartment of the box is neutral and can hold both hot and cold food and the chilled storage time can be extended by easy retrofitting of runners for eutectic plate. The right compartment of the box is equipped with fan heating, which provides fast and uniform heat distribution and can reach operating

temperatures of up to 90°C. Adjustable temperature and ventilation ensure excellent food quality control. ScanBox Ergo Line Duo is available in several sizes with a capacity of up to 28 containers in the GN 1/1 standard.

Equipped with ScanBox Digital Control, One grip handle, solid doors, 160 mm lockable wheels, removable U-guide rails with 80 mm spacing, black RAL 9005, 220-230V single phase as standard. The equipment can be easily adapted as required through available extra options.
